TD's Only

TA, TB, TC, TF and Vintage MG's

CAR NUMBER

TD/ _____

Include any letters found here, if any

ENGINE NUMBER

CAR NUMBER

ENGINE NUMBER

The car and engine number data must be complete with letters as well as numbers. The required data is to be found on the 3" x 4" MAKER'S PLATE fixed to the battery box, tool box, or firewall. Above is shown a facsimile of that portion of the plate containing the data to be recorded. TD owners are cautioned to include the letters in the lower half of the CAR NO. rectangle: i.e. EXL, EXLU, EXL/NA, EXR, EXRU, etc. All registrants must include all letters and digits in the ENGINE NO. This data is important no matter which T Series or Vintage MG is being registered. In the event the MAKER'S PLATE is missing, you may locate the Chassis or Car Number on the left front frame rail and the Engine Number may be found stamped on a round or octagonal plate riveted to the block. If you are developing the required data in this manner, please take particular caution to record TYPE of engine as well as the Number. If the Engine in your car is a replacement, i.e. if the ENGINE NO. stamped in the round or octagonal plate does not agree with the Number stamped on the MAKER'S PLATE, please write the data for the replacement engine here:

Replacement Engine Number: _____ Please do not fail to give the original ENGINE NUMBER, if known.

Please use back and additional sheets to describe any **Modifications** made to your car. We are particularly interested in its **History**, such as ownership, competition record, date of manufacture, etc. or any pertinent data you would like to have made part to the record. Include previous Title and and Tag Registration Data, if known.

How (from whom) did you learn of the Register? _____

Are you already a member of the Register? Yes ___ No ___ . If Yes, please list your Register Number(s) and car(s) so we may make proper notations:

Are you transferring from AM to Full or Vintage membership? Yes ___ No ___ . If Yes, what was your AM Number? _____
